My watercolors are meditations in which I create a deep connection with the Sea. I was born and raised by The Gulf of California (Sea of Cortes) and I enjoy sharing through art what it makes me feel.

The relationship between the moon, the tides and the diversity of creatures living in this blue planet has been a huge source of inspiration.

I hope you enjoy it as much as I enjoyed painting this pieces.

Mis acuarelas son meditaciones en las que creo una profunda conexión con el Mar.

Nací y crecí en la costa del Golfo de California (Mar de Cortés) y disfruto mucho compartir a través del arte todo lo que me hace sentir.

La relación entre la luna, las mareas y los diversos seres que vivimos este planeta azul ha sido desde siempre una gran fuente de inspiración.

Deseo que disfrutes tanto como yo compartir una parte de mi Alma.

Wanderlust artist and ocean advocate, Amanda Szopinski, started exploring her painting technique when she first moved into her studio in the arts district of San Jose del Cabo, BCS, MX. Where the desert sierras drift into the sea, she found her muse and home in the remoteness of Baja. Charged by her love for the ocean, the area, and the community, she has been gifted purpose behind and beyond her paintings. Amanda did not know at the time that her creative resolution to limited supplies would end up being the introduction to what is now her preferred style for her ocean paintings.

The rawness of each piece comes from the freedom of flow of the layers of paint soaked into the canvas. Placing intention in the direction of where the paint flows, the viscosity and placement of color, creates the clarity, the movement, and the depth in the intimate perspectives of the ocean that speak to her. Each painting is an invitation to explore the ocean's power of our nature and our emotional nature.

Amanda's creations have a way of reflecting the profound effects the ocean has on us individually, as a community, and as a global unity. Making the ocean's necessity for habitat and all of humanity worthy of our attention.

"It was a place to feel free. My respect for the sea and the life it holds became much more raw. I wish to think my art is a way of bringing awareness of it's beauty, its delicate nature, and how essential the ocean is to our lives."
